

G2 CONSTRUCTION USA

Federal Contracting Mission Support
| Commercial and Institutional Construction | Specialty Trades

CAPABILITY STATEMENT

CORE CAPABILITIES

G2 Construction USA delivers coordinated construction services for federal, commercial, and institutional facilities nationwide. Our capabilities span vertical construction, specialty trades, building systems, and finish work, with disciplined attention to safety, schedule control, quality documentation, and closeout readiness.

GENERAL CONTRACTING & PROJECT DELIVERY

- Commercial and institutional vertical construction
- Preconstruction planning, estimating, sequencing, and trade coordination.
- Renovations, modernization, tenant improvement, and interior buildouts
- Site logistics, subcontractor management, QC documentation, and closeout

SPECIALTY TRADES & FIELD EXECUTION

- Concrete, masonry, framing, and structural steel
- Roofing, glazing, siding, doors, windows, and envelope work.
- Drywall, insulation, painting, flooring, tile, and finish carpentry.
- Electrical, plumbing, HVAC, and Equipment installation.

DIFFERENTIATORS

- Second-generation mission builder with roots dating to 1958
- Broad NAICS coverage across general construction and specialty trades
- Flexible prime, subcontract, and teaming support with single-source coordination
- OSHA 30 leadership and Certified Quality Control Contractor credentials
